To Washington Trophy Center;

I wanted to let you know that the Dialysis "Oscar" night was a huge success, due to the tremendous generosity of the Washington Trophy Center. We appreciate your donation of "Oscar" trophies for the patients who starred in the Dialysis videotape. The patients who received the trophies were so touched by getting an award that rewarded their efforts. They felt like real celebrities as they accepted the trophy that resembled the original "Oscar".

Your organization and staff helped to make the "Oscar" party a very memorable night for the patients, Children's Hospital staff, and the families and friends who attended. We are very grateful for your participation in making the party a reality. Thank you!

Sincerely,
Judy Ross CCLS
Child Life Specialist
